CLINE BROTHERS ASSAULTED

Lee Solomon Attacks Them When
They Were Under Influence of
Liquor and Unable to Defend Them-
selves—More Trouble to Follow

Mrs. Oliver Kelley, of Copper Hill, left Tuesday morning for Los Angeles to spend the heated term.

Mr. and Mrs. J. F. Gerald and their daughter, Genevieve, who graduated with honors at the Normal, have returned home.

The Methodist Sunday school, which was closed on account of contagious diseases, will open on Sunday next, June 17th, at 10 o'clock a. m.

Mrs. S. D. West who, with her little daughter, has been visiting her parents, Rev. and Mrs. J. A. Howard, took her departure on Tuesday for her home in Mobile, Alabama.

S. L. Hamilton, representing Redwell & Sons, of Phoenix, took his departure on Monday, after spending two weeks here profitably and pleasantly.

Chas. T. Connell, inspector of Chinese with headquarters at Douglas, was in the city this week. Charlie is an old timer of Globe and his friends here are always glad to see him.

Geo. T. Peter, who went to Salt River valley to receive a herd of cattle driven from his Tonto range, returned home on Sunday. His nephew, D. J. Peter, and family whom he visited in Phoenix, are all well. They will spend a part of the summer on the Tonto ranch.

Florence Packard and his aged mother were here from Tonto on Monday. The old lady recently lost by death her husband, from whom she had not been separated for upwards of fifty years, and the loss has been a grievous sorrow.

Mrs. W. T. Armstrong was in the city last Saturday from her home at Dripping Springs. Mrs. Armstrong recently returned from Tempe, where she spent the winter with her daughters who attended school there.

Ed. L. Shaw, the irrepressible commercial traveler who represents California wholesale houses, was a visitor here on Monday. His San Francisco house recovered quickly from the disaster and Ed is sending them large orders.

Some of the Apache Indians residing on the outskirts of Globe are said to be living on the European plan. There are several princesses among the dusky maidens. It helps to sell their baskets and other knick-knacks to the unsophisticated visitor. A princess' basket generally brings \$2, while a basket made by an ordinary Apache maiden without any blue blood in her veins brings only 75 cents.

Skunks are coming in from the hills of Globe to prey upon the chicken coops. Owing to the fear of being bitten and getting hydrophobia they are not molested by anyone. One of them recently visited the Sidow yard and did not leave until it suited its own sweet will. Since it was discovered that skunks have two modes of defense—not to say offense—people fight shy of them.

CLINE BROTHERS VICIOUSLY ASSAULTED BY SOLOMAN

Attack Was Made When Victims Were
Drunk and Unable to Defend
Themselves

The Republican's correspondent at Roosevelt reported the details of a vicious attack made by Lee Solomon on George and Hank Cline near Cline postoffice on Tonto. The first intimation that there had been a fight was made known at Roosevelt by Lee Solomon appearing before Justice J. C. Evans, telling the story of having whipped two men at Cline and asking to be allowed to pay a fine. Judge Evans thought it best to put off the case for a day or so until the matter could be looked into.

On Monday morning Constable Fred Russell was sent to Cline with instructions to look into the case thoroughly and bring back all those whom he believed deserved punishment for their part in the fight. As was expected he found things in a much worse state than Solomon had represented them to be. He got all the evidence he deemed necessary and bringing George Cline, the complainant, back with him, returned to Roosevelt in the evening.

On Tuesday morning Solomon, who had been out on bond, appeared to be arraigned and was charged with sim-

ple assault by George Cline. When confronted with the facts the man realized the seriousness of his case and pleaded guilty and was fined fifty dollars by Judge Evans. The two other participants in the row were both fined five dollars apiece for drunkenness.

By all who are acquainted with the families connected with this disturbance the fight of Saturday night is said to be merely an attempt on the part of Solomon to settle an old score with the Cline brothers and the way which he went about it was not very creditable to himself, and in fact it is said that the fight only occurred because Solomon knew the Clines were drunk and he could whip them. On the night in question Solomon accused the Cline brothers of riding past his home and singing obscene songs and swearing violently. However true this may be Solomon immediately decided that it should not continue and started out forthwith to put an end to it. A short distance down the road he met the Clines and riding up to one of them engaged him in conversation. During the course of the talk he asked for a cigarette paper and just as Cline was bending over his pocket to get it out Solomon struck the man full in the mouth with a rock which he held in his hand. Partially stunned by the blow, Cline reeled in his saddle and as he did so Solomon struck him again. The other brother, Hank Cline, realizing George's plight, immediately rode up and tried to help, but he was too much under the influence of liquor to be of any use, and before he could defend himself he too had been struck a terrific blow on the side of the head by Solomon. With both his enemies laid low Solomon returned to his home and left the injured men where they had fallen. When the full extent of their hurts had become known, George who had received the blow in the mouth was minus seven front teeth and had a very badly shattered jaw, while Hank was severely cut and bruised about the left side of the head.

When Solomon realized the extent to which he had injured the two brothers, as has been stated, he came in to give himself up. Considering the gravity of the offense and the charge that might have been brought against him—for he could have been bound over to the grand jury had the charge been worded a little differently—the young man is to be congratulated on the lightness of the sentence imposed upon him.

It is believed that more will be heard of this matter soon on account of the exceeding bad blood that exists between the Solomons and Clines.

KINSEY HAS GOOD THING IN EUREKA MINE LEASE

Mr. Kinsey now has his headquarters at Globe and is independent of his former associations of the Bonanza Circle people so far as enterprises he has under way are concerned. To many friends about the city it will be agreeable news that he is operating a mine of his own and that it is proving a proposition of exceeding desirability. The property is seven miles west of Globe, in the vicinity of the Gibson mine. Mr. Kinsey terms it a silica proposition, but modestly admits that the silica carries six per cent copper and that it is finding easy market at the smelters for furnace lining purposes at the rate of 1000 tons per month. To the present time the output has all been quarried from the mountain on which the work has been done. The immense amount of the material in sight insures that this very inexpensive and desirable manner of removal will be possible of continuance for a long time to come. The outlook is therefore exceedingly good for the owner of the property to connect with a private car or two at no far distant date.—Bisbee Miner.

A Quiet Wedding

A quiet wedding of a popular young couple took place at the residence of Mr. and Mrs. C. H. Schultz on Tuesday evening when Col. F. S. Breen and Carolyn E. Austin were united in marriage. The ceremony was performed by Rev. C. P. Wilson, of Pomona, Cal., in the presence of a few friends of the happy couple. The groom is supervisor of the forest reserves in this vicinity and a lieutenant-colonel of the first regiment of the Arizona National Guards, popular and well known throughout the territory. The bride is one of the efficient teachers of our public schools and for the past three years the principal of the schools and is one of the accomplished and popular young ladies of Flagstaff. They went at once to housekeeping in the Kinsey cottage on Birch street.—Cocconino Sun.

The SILVER BELT tenders congratulations.

St. John's Episcopal Church
Services on Sunday at Odd Fellows' Hall.
Sunday school at 10 o'clock a. m.
Morning prayer at 11 o'clock a. m.
Evening prayer at 8 o'clock p. m.
All are cordially invited.
REV. GEO. SELBY, Rector.

All the mines at Bisbee will close down on the evening of July 3 and resumes work on the morning of July 5. The big celebration of the Fourth will be held at Douglas.

AMERICAN MINERS ARE RAPIDLY LEAVING CANANEA

All Who Abetted the Strike Warned of
Danger of Remaining and They
Are Leaving

A Bisbee dispatch says, As a result of the strike at Cananea American miners, it is said, are crossing the line in droves. Several hundred have arrived in Bisbee in the last forty-eight hours.

Thursday the Mexican authorities sent an inspector through the mines notifying the American miners that those under suspicion of having caused trouble at Cananea and openly sympathized with striking Mexicans, would on the day following be placed under arrest. The result was an exodus of Americans.

It can be reliably stated that the American authorities believe that members of the Western Federation of Miners at Cananea secretly encouraged and abetted the strike, and members of this organization were the first to receive notice to leave. In consequence the Mexican authorities adopted strong measures to enforce the orders to return to work. Thursday morning fifty Mexican ringleaders were arrested and jailed. As soon as it became known that the men were in jail the Mexicans began returning to work, fifteen hundred applying for work on old wages.

Colonel Greene denies the report that the wages of the Mexicans have been increased. In a signed statement issued this afternoon he says the men resumed work under the same conditions as before, and that at charges in wages would be made under any circumstances. The number killed in the riots will never be known.

The Mexican authorities buried the dead Sunday and Saturday nights, no attempt at identification being made.

The governor of Arizona and the Mexican officers have been requested to send official reports to their respective governments concerning the taking of armed forces of American volunteers from Cananea Saturday by Ysabal.

LARGE GOLD OUTPUT OF THE RAND MINES

Mail advices from South Africa indicate that March was a splendid month in the history of the gold industry of the Rand. The output was 443,723 fine ounces valued at £1,884,815 or \$9,141,352, exceeding the best previous monthly record by £51,500. There were 7025 stamps at work on the Rand and 7460 in the whole Transvaal. Among the laborers were 78,576 Kaffirs and 49,877 Chinese. A notable increase of stamp duty at several of the mills is credited to the use of tube mills. The highest profit per ton earned on the Rand was 36 shillings, to be credited to the Robinson Central Deep mine. Nine dollars per ton is a handsome profit anywhere. In this case the working costs were 16s. 5d, say, \$4 per ton. Therefore the profit was nearly 70 per cent.—Mining and Scientific Press.

The Copper Mines of Japan

Copper mining in Japan is an ancient industry. Its origin is almost beyond the time of authentic history, and the larger mines, whose record is well known and preserved, have been steadily operated for three or four hundred years. There are a number of smaller mines, some of which date back for more than double that time. The total output of the Empire in 1904 was 34,850 long tons of copper. Full figures for 1905 are not yet available, but there was probably a small increase in output. In this list of the world's copper producers Japan stands fourth, its total being exceeded only by the United States, Spain and Mexico. The output supplies all home needs, having been sufficient even to meet the great demand for the metal for use in cartridges and other war material during the recent conflict with Russia. Usually there are considerable exports, chiefly to China and other eastern countries.—Mining and Engineering Journal.

De Lara Must Die

Word has been received from Cananea that Gutierrez De Lara, who formerly resided in Douglas, has been arrested as one of the ringleaders of the riots at Cananea and that he will be executed. De Lara is a Mexican lawyer and left Douglas about eighteen months ago. He lived here with his sister and about two years ago a brother of De Lara, who is a lieutenant in the Mexican army, visited him here.

From private advices received here from Cananea, Enrique Bermudez, who is said to have instigated the riots, is still at large, and is probably now in this country. He has many friends in this section of the country who will see that he is taken care of.—International American.

Brick! Brick!

Parties wanting brick can have their wants promptly supplied by leaving their orders at the office of
GIBSON & HENDERSON,
Mines and Stock Exchange,
Globe, Ariz.

We have received a big stock of fancy front doors, comprising all the latest designs. Prices reasonable. Gila Lumber company.

Retired from Business

Notice is hereby given that on June 1, 1906, we sold our business, the Globe Livery Stable, to Kelsey & Co., and all persons indebted to us are requested to call at the stable and pay their bills by June 15, 1906. Accounts not liquidated by that date will be placed in the hands of an attorney for collection.
KNIGHTON & BELKNAP.

Attention, Tax-Payers!

Bring in your assessment lists to the office of the County Assessor now. Under Paragraph 3848 (Sec. 18) it is your duty to make out and deliver to the Assessor a correct list of all property owned by you or in your charge or under your control, whether you shall receive from the Assessor a notice or a demand to do so or not.

Any property willfully concealed, removed, transferred or misrepresented by the owner or agent thereof, to evade taxation, shall upon discovery be assessed at five times the amount of tax for that year. Paragraph 3850 (Sec. 20.)
E. P. SHANLEY, Assessor.

FORFEITURE NOTICE

To W. A. Clark, W. M. Steffin and H. H. Schuman, their Heirs, Executors, Administrators, or Assigns, or Any One Claiming Under Them: You are hereby notified that the undersigned, H. A. Carther, has expended during the years 1904 and 1905 two hundred dollars (\$200.00) in labor and improvements upon each of the following mining claims, situated on or near Slate Creek, four miles west of A. J. Howell's ranch on Tonto Creek, Gila County, Arizona, viz: Steffin's Pride, Red Bandana, Spring, Tiger and Prehistoric Mining Claims, a record of which is made in the office of the Recorder of Gila County, Arizona.

Said expenditures of two hundred dollars for each of the above named claims for the years 1904 and 1905 being a total of one thousand (\$1,000.00) dollars expended on the five claims (less fifty dollars paid by the said W. A. Clark as part payment for the year 1904), were made by the undersigned in order to hold said mining claims under the provisions of Section 2324 of the Revised Statutes of the United States and amendments thereto concerning annual labor on mining claims, one thousand dollars being the amount required to hold said mining claims for the years above named.

And if within ninety (90) days from personal notice in writing, or within ninety days after the publication hereof you fail or refuse to contribute your portion of said expenditure of one thousand (\$1,000.00) dollars as co-owners, together with the costs of this advertisement, your interests in the said mining claims will become the property of the undersigned, your co-owner, who has made the required expenditures under the terms of said Section 2324.

H. A. CARTHER.

First publication March 8th, 1906.
